

HOW EVERY PERSON CAN HELP TO WIN THE WAR.

THE wealth of the Nation is made up of the wealth of the individuals added together; every shilling saved by any man, woman, boy, or girl forms part of the great total; the war is being fought by our men, but it is being paid for by those who cannot go to the front, and unless the money is provided to supply the men at the front with food, clothing, guns, munitions, and all the means of transport for men and materials, the men at the front will be helpless. Every person who cannot go to the front is surely anxious to help, because the more complete the supplies, the more quickly and surely shall we win the war, and have our men returning home again, victorious.

Every person can nelp by working or lending—some can do both; and everyone can have money to lend by self-denial and saving. We can all do without some little luxury or amusement which in times of peace we have been accustomed to enjoy. The soldiers at the front have to deny themselves many such indulgences. and we can save money by doing the same, and having resolved to do our part, let us begin by---

- 1. Opening a Savings Bank Account with one shilling.
- 2. Resolve to add to it another shilling or more every pay day.
- 3. As soon as the savings amount to 17s. 6d. buy a War Savings Certificate, which will be worth 20s. in three years, the 2s. 6d. added being interest at 4½ per cent.
- 4. If five shillings a week can be saved, take up a £10 War Loan Bond, on which you will receive 4s. 6d. interest every six months.
- 5. Buy a Safety Money Box from the State Savings Bank for 6d., so that you can drop in odd coins that might be spent if you carry them about. The Bank will give you another box free when the first is full.

The State Savings Bank will take charge of your War Savings Certificates and War Bonds free of cost, and will collect and add the interest to your account.

By doing as suggested you will help to win the war, but you will also help yourself, because all the money you save and lend to the Government by purchasing War Savings Certificates and Bonds will be paid back to you after the war is over on the dates stated, and so you will have that money to invest, and the interest upon it will be a steady income for you as long as you live.

The State Savings Bank will pay you 34 per cent. interest, so long as the money is in the Bank, and the way the money grows is shown in the following figures:---
